OBJECTION TO PROPOSED PLAN FOR GENERAL DISTRIBUTION TO INVESTORS

May 2, 2007

**Honorable Richard Rogers
United States District Court**

Dear Judge Rogers,

RECEIVED

MAY - 3 2007

**CLERK U.S. DIST. COURT
TOPEKA, KANSAS**

I am writing to request that you not sign the latest document presented by Receiver Larry Cook, dated April 13, 2007 in regards to Case 05-4057.

Like all the other valid members of CEC, we joined a Private Club and funded it with our savings and retirement.

We, as members were never allowed to defend our Private Club, and Mr. Cook was allowed to take everything from us, as we sat on the sidelines while it happened. Mr. Cook knew this to be the case and apparently felt very secure, knowing that he would be allowed to keep as much money as he asked for. The greed in filing ridiculous motions to receive unrealistic fees, fees paid by money that belongs to CEC members, who were not allowed any input in this case, is far from the America that I have had enormous pride and respect for, all my life.

I am 77 years old. Some of us will survive this, while others probably will not. Most of us will end up living with relatives, because we have no retirement. However, Mr. Cook will be living off everyone's combined retirement funds, better than we had planned, as individuals.

With all due respect, I am asking you to please do not sign the Receiver's motion, and put a stop to outrageous fees and expenses he is asking to receive, from money that is not rightfully his.

Respectfully Submitted,

**Floyd Russell
CEC Member**
